Summary 2013 Results

Phosphorus

Secchi depth in metres

E-Coli & Coliform Levels (cfu's per 100 ml)

<u>E-Coli</u>	TML-1	TML-2	TML-3	TML-4	TML-5
May 20, 2013	<3	<3	<3	<3	<3
July 21, 2013	<3	19	16	11	<3

Threshold is 100 cfu's per 100 ml

<u>Coliform</u>	TML-1	TML-2	TML-3	TML-4	TML-5
May 20, 2013	33	16	25	25	13
July 21, 2013	25	87	94	72	16

Threshold is 1000 cfu's per 100 ml

Summary Notes

- E.coli and coliform levels were below the Ontario recreational water use thresholds of 100cfus for *E.Coli* and 1000 cfus for coliform
- Measured *phosphorus* levels as determined by the Lake Partner Program and the U of Waterloo testing program were all below 21 ug/L
- Dissolved oxygen is important for the abundance and health of aquatic life (e.g. fish)...TML values ranged between 5.7 and 8.8 mg/L which are acceptable values for a warm water lake like ours
- A healthy lake pH range is typically 6.5 - 8.5...TML average value is 7.03
- Water clarity as measured with a Secchi disk started at 5.7 m in May and decreased to 2.7m in October

Summary Results of 2013 Water Quality Survey

❖ Safety (swimming, drinking) trumps water clarity ("looks good") in our question "What Does Water Quality Mean to You?"...

❖ "What Most Concerns You About Our Lake Water Quality?"...

Biggest concern was "stuff getting into water that shouldn't be there", such as runoff from septic tanks and general run-off

Second biggest concern was potential for algae blooms

Other concerns included low water level, increase in weeds, and build-up of 'slime' on rocks

Latest Blackfly and Mosquito Rating Report!

Conveniently located in the Almaguin Highlands region, Three Mile Lake is one of several lakes of the same name in Ontario. This particular Three Mile Lake is just outside the village of Burk's Falls in the Parry Sound District, 30 minutes north of Huntsville and 60 minutes south of North Bay....

This site includes local news and announcements, web cam, lake water quality information, a blog and photo gallery, and links to other sites of interest. Come back and visit us 'virtually' on a regular basis!

The Three Mile Lake Community association is a group of cottage owners, local residents and local businesses focused on the on-going enjoyment of our lake. We do this by:

- Promoting programs focused on maintaining the environment and sustaining water quality.
- Communicating items of interest to permanent and seasonal residents.
- Protecting the interests of the lake, the community and its residents.
- Providing a sense of community through fundraisers and social events.
- Being a responsible part of the broader community.

The Three Mile Lake Community Club web site has been developed strictly for the enjoyment of members of the TMLCC, and is maintained purely on a volunteer basis. While all attempts are made to produce accurate information, the TMLCC accepts no liability for errors or omissions with respect to information provided on this site or on any linked site herein. If you note any errors on this site, please email your concerns to info@3milelake.org.
